Summary

Computer Science undergraduate specializing in **Full-Stack Development** and AI-driven systems. Skilled in building scalable web applications using React.js, Node.js, and modern databases. Experienced in integrating AI features like speech processing and real-time analytics. Strong foundation in data structures, **backend architecture**, and problem-solving with hands-on project deployment experience.

Skills

Languages: C++, Python, JavaScript

Frameworks: React.js, Next.js, Node.js, Express.js

Databases: Supabase, MongoDB, SQL

AI/ML & Cloud: ML Model Integration, Speech-to-Text, Text-to-Speech APIs, AWS (Basic), Google Cloud APIs

Tools: Git, GitHub, VS Code, Linux, Postman, REST APIs, GitLab

Internship

Backend & Full-Stack Developer Intern

June 2025 - Dec 2025

NullClasses

Remote (Paid)

- Engineered scalable full-stack applications using React.js and Node.js, reducing API response time by 30% through optimized CRUD operations
- Architected responsive, high-performance user interfaces with Next.js, Tailwind CSS, improving cross-device usability and engagement.
- Connected 5+ secure third-party APIs, improving system reliability by 25%.

Projects

🔗 Interview AI Agent (Oralytics AI) | Full-Stack + AI/ML Developer

Jan 2026 - Mar 2026

- Designed an AI-powered mock interview platform with real-time question-and-answer processing and an automated evaluation system.
- Implemented machine learning models to analyze responses and generate dynamic performance scores with actionable feedback.
- Deployed Speech-to-Text and Text-to-Speech systems to enable seamless voice-based interactions within a scalable Node.js backend.

🔗 Uber Clone | Full-Stack Developer

Sep 2025 - Mar 2026

- Engineered backend services and RESTful APIs for real-time ride matching and driver allocation logic.
- Created secure authentication and session management systems to handle concurrent user activity reliably.
- Implemented a responsive frontend using React, integrated with backend services, and optimized database interactions.

Awards & Certifications

- HackQuest 2025:** Participated and developed a software solution in a national-level hackathon at UIT Allahabad (2025).
- FlutterFlow Hackathon (IIIT Allahabad):** Ranked in the Top 5 for rapid application development and deployment (2025).
- Certifications:** AWS Educate Cloud 101 (2025), C++ Crash Course (Udemy, 2024).
- Guvi SaWIT.AI Challenge:** Recognized for AI/ML project execution and integration.

Education

Pranveer Singh Institute of Technology, Kanpur

Expected Graduation: 2027

Bachelor of Technology (B.Tech) | CSE(AI/ML)

CGPA: 6.4/10 (till 5th Semester)

Dwarka Prasad Public School, Prayagraj

2022

Senior Secondary (Class XII, CBSE)

Percentage: 61.4%

Bishop George School, Prayagraj

2020

Secondary (Class X, ICSE)

Percentage: 71.5%
